7. Description: Ash Grove Cement Company is currently operating a shale quarry under a Small Mine Notice. The company plans to upgrade to a Large Mine (increase to > 5 acres). The operator proposes to expand the operation to approximately 22 acres. The operator has been asked to post a bond for \$44,600. <u>During Operations</u> AGCC will mine a shallow open pit for aluminum shales. Mining will involve blasting and dozing. Material will be loaded onto trucks using loaders and hauled back to the Ash Grove Cement Plant approximately 20 miles from the mine site. The operator plans to initiate mining with approximately 340,000 tons of material, during the first 5 years of activity. The operator will also construct an alternate access road as part of the mine plan development. <u>Following Operations</u> AGCC will backfill and regrade quarried areas to slopes no steeper than 3h:1v. Roads and pads will be ripped and regraded where appropriate. All reclaimed areas will be fertilized and reseeded with an approved seed mixture. All equipment and structures will be removed from the site. The new mine access road will be reclaimed after mining.
